Westfield Partners with INDOT on Local Improvement Projects

Westfield, IN – Westfield officials met today with Indiana Department of Transportation (INDOT) officials to discuss details of some upcoming improvement projects scheduled for Westfield's future. The intent of the meeting was to establish a line of communication between both organizations as a part of INDOT's newly announced commitment to local involvement.

"Our plan is to meet with INDOT on a regular basis to ensure project consistency from both organizations," says Andy Cook, Westfield Town Council President. "We have several major improvements projects on the horizon and our goal is to bring the best quality project to our community," says Cook.

During the meeting, several scheduled projects were discussed and in some cases, INDOT provided status updates, and in other cases, Westfield offered alternative options and measures to help meet the growing expectations of the community. Some of the topics discussed were roads, trails, sidewalks, medians, landscaping beautification, added lanes, passing blisters, signs, signalization, construction timelines, and many other specifications outlined in upcoming projects.

Attending the meeting from INDOT was Deputy Commissioner Michael Cline and several members of his staff. Town representatives included Andy Cook, Town Manager Bruce Hauke, and members of town engineering division staff.
